

STAY TUNED

The October and ensuing issues of the Bulletin will contain some excellent articles by Mike Burrows, Rudy Roy and others. The editor welcomes articles or suggestions for articles from any member.

Incidentally, Mike Burrows calls attention to the fact that his article in the March Bulletin was supposed to have been titled "British South African Revenue Cancels." The editor inadvertently left out the word "British" in the title. Mike also sends along another set of illustrations for his article on numeral Perfin's appearing in the January Bulletin. The editor does not remember receiving a set of these illustrations with the original article, but quite possibly could have misplaced them. They are shown below for the benefit of members who may wish to review the January article with these illustrations at hand.
